

### **Remarks/Arguments**

#### **I. Changes to the Specification:**

Applicants in reviewing the application to pay the issue fee noticed for the first time several typographical errors in the specification.

Applicants have added a semicolon at the end of figure caption for Fig. 9.

Applicants, in paragraph 0021:

have added a comma after --as described above. For example-- ;

have deleted the sentence fragment ~~In still other embodiments, base 152.~~ ; and

have added a comma after --In addition-- immediately following the above deletion.

Applicants, in paragraph 0045, have added "be" at the end of the paragraph after --  
The micromover may --.

Applicants believe these changes add no new matter to the specification.

#### **II. Amendments to the Claims:**

Applicants in reviewing the application to pay the issue fee noticed for the first time a couple of typographical errors in the claims.

Applicants have amended claims 1 and 19 to clarify the invention defined thereby.

Applicants have deleted -- ~~said first semiconducting layer~~ -- in claim 1 and have added gate after -- coupled to said conductive-- in claim 19.

#### **III. Changes to the Drawings:**

Applicants in reviewing the application to pay the issue fee noticed for the first time a reference number error in the drawings.

Applicants have included in this response a change to Fig. 1. In Fig. 1, element number 331 has been changed to number 131 as it is described in the specification.
